TO WHOMSOEVER IT MAY CONCERN

We have installed a P^H Controller model DPH 513 from Global Electronics, Hyderabad in our process reactor for On line P^H Control of a process at -10°C in July 2011.

The P^H Controller is working very well, maintaining the Batch P^H within the limit.

We have found good improvement in our process and we are very satisfied with the performance of this P^H Controller.

Thanks and Regards,
